

State	Area of Concern	Site	Activity	Implementation Year	Total Project Cost	Non-Federal Funding Available
IL	Waukegan Harbor	Waukegan Harbor	Contaminated sediment remediation.	2009	\$36,000,000	\$0
IN	Grand Calumet River	West Branch, Reach 3 (between Columbia Ave. and Calumet Ave.)	Contaminated sediment dredging, remediation, disposal and capping.	2009	\$17,000,000	\$6,000,000
IN	Grand Calumet River	Roxana Marsh - dredge and cap and restore riverine marshes between Indianapolis Blvd. and Columbia Ave.	Remedial design.	2009	\$3,000,000	\$0
MI	Muskegon Lake	Division Steet Outfall	Remediation of approx. 160,000 cubic yards of contaminated sediments.	2009	\$24,000,000	\$10,000,000
MI	River Raisin	River Raisin Harbor	Remediation of approx. 100,000 cubic yards of contaminated sediments.	2009	\$18,000,000	\$0
MI	Detroit River	Trenton Channel (downstream of Black Lagoon)	Remediation of approx. 7,000 cubic yards of contaminated sediments.	2009	\$1,000,000	\$0
MN	St. Louis River	Minnesota Slip	Remedy selection and remedial design.	2009	\$500,000	\$0
MN	St. Louis River	Slip C	Remedial investigation and feasibility study.	2009	\$5,000,000	\$0
MN	St. Louis River	Assessment and remediation of seven known contaminated areas: Rice's Point, 21st. Ave./WLSSD Area, Grassy Point, Duluth Riverside, Hearing Island, Cloquet Riverside, and Ore Dock Bay.	Site assessments.	2009	\$2,000,000	\$0
NY	Buffalo River	Buffalo River	Contaminated sediment remediation, phase 1	2009	\$20,000,000	\$7,000,000
NY	Eighteenmile Creek	Burt Dam	Assess contaminated sediments.	2009	\$3,000,000	\$0
OH	Maumee River	Ottawa River (river mile 4.5 to 7.0)	Contaminated sediment remediation	2009	\$41,000,000	\$20,000,000
OH	Maumee River	Duck/Otter Creek	Sampling, Assessment and development of remedial alternative.	2009	\$1,000,000	\$350,000
OH	Ashtabula River	Ashtabula Harbor	Fish habitat restoration	2009	\$1,000,000	\$0
OH	Ashtabula River	Ashtabula Harbor	Wetland restoration	2009	\$500,000	\$0
OH	Ashtabula River	Ashtabula Outer Harbor	Dredge and dispose of approx. 200,000 cubic yards of contaminated sediments.	2009	\$20,000,000	\$0
OH	Black River	Black River	Fish habitat restoration	2009	\$150,000	\$0
OH	Maumee River	Toussaint Creek, 3,000 ft. small harbor navigation channel	Dredge and dispose of contaminated sediments and install breakwall to prevent recontamination.	2009	\$11,000,000	\$0
WI	Milwaukee River AOC	Kinnickinnic River	Contaminated sediment remediation	2009	\$22,000,000	\$8,000,000
WI	Menominee River	Menkaunee Harbor dredging	Dredge and dispose of contaminated sediments.	2009	\$5,000,000	\$0
WI	Milwaukee River	Lincoln Park Lagoon	Design and implement contaminated sediment remediation.	2009	\$30,000,000	\$10,000,000

				Total for 2009:	\$261,150,000	\$61,350,000
MI	Detroit River	Trenton Channel (between Wyandotte and Riverview)	Remediation of approx. 300,000 cubic yards of contaminated sediments.	2010	\$45,000,000	\$0
MI	Muskegon Lake	Ryerson Creek	Remediation of approx. 30,000 cubic yards of contaminated sediment.	2010	\$5,000,000	\$0
MI	Rouge River	Rouge River	Remediation of approx. 100,000 cubic yards of contaminated sediments.	2010	\$15,000,000	\$0
MN	St. Louis River	Minnesota Slip	Implement contaminated sediment remediation.	2010	\$8,000,000	\$0
MN	St. Louis River	Assessment and remediation of seven known contaminated areas: Rice's Point, 21st. Ave./WLSSD Area, Grassy Point, Duluth Riverside, Hearing Island, Cloquet Riverside, and Ore Dock Bay.	Remedial investigations and feasibility studies.	2010	\$30,000,000	\$0
OH	Maumee River	Ottawa River (river mile 3.2 to 8.8)	Contaminated sediment remediation	2010	\$13,000,000	\$0
OH	Maumee River	Ottawa River (river mile 3.4 to 4.9)	Habitat restoration	2010	\$500,000	\$0
OH	Ashtabula River	Ashtabula Harbor	Wetland restoration and access	2010	\$250,000	\$0
OH	Ashtabula River	Ashtabula Harbor	Wetland creation in harbor	2010	\$2,000,000	\$0
MN	St. Louis River	Slip C	Remedial design.	2011	\$1,000,000	\$0
MN	St. Louis River	Slip C	Implement contaminated sediment remediation.	2012	\$15,000,000	\$0
MN	St. Louis River	Assessment and remediation of seven known contaminated areas: Rice's Point, 21st. Ave./WLSSD Area, Grassy Point, Duluth Riverside, Hearing Island, Cloquet Riverside, and Ore Dock Bay.	Remedial designs.	2012	\$4,000,000	\$0
MN	St. Louis River	Assessment and remediation of seven known contaminated areas: Rice's Point, 21st. Ave./WLSSD Area, Grassy Point, Duluth Riverside, Hearing Island, Cloquet Riverside, and Ore Dock Bay.	Implement contaminated sediment remediation.	2013	\$100,000,000	\$0
				Total for 2010 and beyond:	\$238,750,000	\$0
